Meeting the challenges of Agriculture and Forestry with Commissioner Bob Odom

Louisiana's Forest Productivity Program (FPP) has funded 3,078 private timberland owners for \$11.8 million since it was begun in 1998, according to Commissioner of Agriculture and Forestry Bob Odom.

FPP was approved by the 1997 session of the Louisiana Legislature and went into effect July 1, 1998. The 50-50 matching funds were made available by the Legislature from part of the state's portion of timber severance taxes.

Odom said FPP is designed to substantially increase the amount of reforestation following a forest inventory that revealed, for the first time ever in Louisiana, more timber was being harvested than what was actually being replanted.

Odom is impressed by the amount of interest in FPP, noting that funding has steadily increased every year since 1998.

In its first year there were 955 participants for \$3.4 million, 916 in 1999 for \$3.7 million and 1,207 in 2000 for \$4.7 million.

"Reforestation is our number one priority to ensure a steady supply of timber moving into Louisiana's \$5 billion a year paper making and wood products industry," Odom said.

Small, private landowners own about 60 percent of Louisiana's merchantable timberland. "In order to support our paper and wood products industries, we must make reforestation funds accessible," Odom said. "FPP opens a wide range of possibilities for the small timberland owner trying to maintain or replenish his forest acreage."

Under the program's regulations, forest landowners apply on a first come, first served basis for 50-50 cost sharing money. The maximum allowed per landowner is \$10,000 and the minimum size tract available for reforestation is five acres.

The broad categories of tree management practices for which the money can be used include cost of seedlings or seed, planting, labor, site preparation and control of competing vegetation.

Landowners who participate in the FPP program are required to maintain the forestry usage for a period of 10 years.

Although situations vary, typically, Odom said, it takes 10 to 12 years before the landowner will thin his timber for the first time and realize his first profit. In 18 to 20 years there will be another cutting and then again at 28 to 30 years, and finally at 35 years. "All the time frames are somewhat variable, but from a single planting the timber owner can expect income at a number of points over a 30-plus-year period."

Applications for FPP are available from any district forestry office or forestry's headquarters office at the Louisiana Department of Agriculture and Forestry, (225) 925-4500 or P.O. Box 1628, Baton Rouge, LA 70821. Applications are dated in the order they are received and funding is approved on a first come, first served basis each year.

Deshotel Garners Top Prize at Brangus Show

Camille Deshotel, a junior exhibitor, daughter of Randy and Karen Deshotel, and sister of Sarah and Allison, Ville Platte, Louisiana, walked away with the prestigious Grand Champion Female honors at this year's International Brangus Show held at the Houston Livestock Show and Rodeo in Houston, Texas. This is the first time that a Louisiana Bred heifer, owned by a Louisiana resident has accomplished this feat.

This year's highly anticipated show attracted 189 entries from 14 states with Ankony Angus cowherd manager, and well-known international judge, Dr. Dave Duello evaluating the entries. Proving to be a year-round champion contender, Camille's entry, ER Ms. Milkyway 109/9, daughter of Brink's Milkyway 535D38, topped

an impressive yearling division prior to earning the grand title. As per Camille, "To win the Show of Shows in the Brangus breed is a dream come true!"

Randy Deshotel is an Assistant Vice President of Louisiana Federal Land Bank, FLCA in the Crowley and Opelousas offices. Karen is a Family Nurse Practitioner employed by Louisiana Oncology Associates, Opelousas, Louisiana. The Deshotel family has been involved in Brangus cattle shows since 1994. Sarah, age 13, has received numerous titles including National Junior Brangus PeeWee Grand Champion Showman, Brangus Futurity Champion Junior Showman, Grand Champion Brangus Bull – Louisiana State Fair, and Grand Champion Brangus Bull – LSU State

Brangus Show. Camille, age 11, in addition to this win, has to her credit being two (2) time Grand Champion Brangus Female – Junior Show – Louisiana State Fair, Grand Champion Brangus Female – Open Show – Louisiana State Fair. Allison, age 9, has received several local titles and is working hard to compete with her sisters.

In the exhibition of their cattle, the Deshotel family has been from Houston to Tampa, Kansas City to San Antonio, Hattiesburg to Waco, and everywhere in between. Showing is a year 'round affair, but through their travels and hard work, many friends have been made, and many an experience has been shared as a family. The Deshotels have Three Sisters Cattle Co., and work and show in conjunction with The Eagle's Ranch, Evergreen Louisiana.

Senior Farmers Market Nutrition Program target date delayed until June

Early spring weather conditions have pushed back the target date for mailing Seniors Farmers Market Nutrition Program coupons to eligible senior citizens, according to Commissioner of Agriculture and Forestry Bob Odom.

"We want participants to have the best selection of produce available to them when they go to redeem their \$20 in coupons," Odom said. "The late cold snap we experienced combined with wet conditions in some areas

forced many produce farmers to plant late this spring, especially in the central and northern parishes."

Odom said 116 farmers statewide have been certified to accept coupons at farmers markets and roadside (cont'd on p. 7)
